EXPERIENCE

MILLENNIUM

SOFTWARE ENGINEER, ENTERPRISE RISK TECH

June 2025 – Current | Bengaluru

- Built the UI shell of the **Enterprise Risk Dashboard**, a firm-wide, cross-asset **Dash** platform, with a **component library** researchers use to ship consistent, production-grade pages.
- Migrated the data-access layer to a **Rust** API with enforced permissions, **Parquet**-based caching and richer monitoring.
- Built a **Playwright** regression suite with **AI**-generated reports catching pre-release changes down to cache inconsistencies.
- Integrated the firm's **AI agent** into the dashboard so it can operate the UI and query the **Rust** API directly for deeper analysis.

AUSTRALIA AND NEW ZEALAND BANKING GROUP LIMITED

FULL STACK DEVELOPER, FRONT OFFICE TECH

June 2022 – June 2025 | Bengaluru

- Created a **Static Data Viewer (ReactJS, Spring)** that turns XML into an editable, human-readable grid with version diffs.
- Created a **Review System (ReactJS, Spring, C++, MS SQL Server)** that blocks reference-data changes pending approvals.
- Created **live** IR/FX fixing views for traders, optimized for high-volume data via caching, chunk-loading and virtualization.
- Contributed to the **FXO trade booking migration** from Murex MX.2.11 to MX.3, reworking the affected views and service APIs.

MATH MATERATE

FULL STACK DEVELOPER

May 2021 – August 2021 | Remote

- Developed a **Live classes Portal** with integrated **Jitsi** video conferencing for hosting classes and resolving student doubts.
- Built the entire frontend in **ReactJS**, handling everything from layout and CSS styling to state and REST API integration.
